

CHAIRMAN'S REPORT

Ian Simpson Chairman

12th May 2019

Hello members and guests our monthly meeting of the Board of Directors was held last Thursday with the following items discussed being some points of interest.

FINANCE

The Club has just been through a very busy three to four months with all cost centres trading well. Projections are for a financially successful year; however our staff and Board will remain vigilant to ensure we can continue to improve the services and facilities to our members and guests.

FUTURE PLANNING

Members of our senior staff team recently spent a day and half planning the future operations of the club. This process sets goals and targets for our staff and provides direction to them.

Troubleshooting and identifying areas for improvement was part of the process. These issues are, in part, as a result of feedback you, as members, provide to our staff.

CLUB PROJECTS

Cart Shed. The new cart shed is now operational. Please see our staff at the front office or reception if you wish to register your interest in obtaining a cart space.

On-line bookings. This is now operational and working well. I'm sure Shaun or Natalie can help those of you who need initial assistance with this system.

Shaun's fitting centre. This should be underway in the next couple of weeks.

Golf green keeper's shed. This work will be done in stages as funds become available.

Electronic Honour Boards. Are still scheduled to be installed, however the contractor engaged to undertake this work is on leave. We hope the honour boards will be operational in July.

Family Fun Centre. Plans are now complete for this area. Quotes from builders are now being received and quotes for interior design are also being prepared. Once received the Board will then consider financial, management and staffing issues.

Auditorium. The new chairs have arrived and are in place, painting is due to start on 13th May, carpet is to be laid on 20th May and new blinds are to be installed on 24th May.

New cart path. Will be constructed from the eastern pool fence between the existing kiosk and amenities block. Work will commence on 14th May. This is being done for safety reasons. Also, a reminder to the cart users. The existing paths are shared areas, so we ask you to adjust your speed and be wary of pedestrian traffic.

Storage container. You will notice that this has been delivered and is adjacent to the back dock. Efforts will be made to paint this and tidy that area up. The storage unit is being used for sporting equipment, archives and promotional goods.

MNC High Performance Sports Stadium. Members of the Board and Council staff met recently to discuss progress of this facility.

Council are preparing the development application. Several reports are required to be complete prior to this being lodged. For example, geotechnical, bushfire assessment, and statement of environmental effects reports are required with the DA. The DA will be lodged with Coffs Harbour City Council for assessment because KSC cannot assess their own DAs. So, as you will appreciate this is not a simple process, but progress is being made.

Air conditioning. The new air conditioning system will be installed late in May and be in use by 12th June

CLUB EVENTS

Mey Games

As you may or may not be aware we have now officially been endorsed and approved to host the Mey Highland Games in 2021. This is very exciting news and we will keep you up to date with how the events are unfolding.

Club of the year

This year we have entered in to the Club of the year awards, we have entered under the community support category. We believe our submission is very strong, fingers crossed for a positive result.

Business awards

This year will see our Club host the Macleay Valley Business awards in June. We are excited at the ability to show off our facilities and new auditorium upgrade. We have entered several categories ourselves and are all looking forward to a successful night.

CLUB MEMBERSHIP

The Board approved the membership of 88 new members, bringing our total membership to 5240

FEEDBACK

An iPad has been placed near the ATM in the foyer of the club. This is for customer feedback and comments. So please give us your comments so we can continue to improve the services to you.
