

A MESSAGE FROM CEO DAVID CUNNINGHAM & CHAIRMAN IAN SIMPSON

MEDIA RELEASE

Monday, 26th October 2020

Mid North Coast High Performance Sports Centre

The South West Rocks Country Club and the South West Rocks Sport and Recreation Association are thrilled with Kempsey Shire Council's recent decision to fund the Mid North Coast High Performance Sports Centre.

Council supported the needs of both the SWRCC and the SWRSRA by approving the stadium design that most resembled the previously approved development plans that were facilitated by community consultation, Council advice, peer reviews and advice from State level sports administrators.

The design chosen has major potential for usage by local user groups, commercial opportunity for the community as well as the potential to attract sports and entertainment events of regional importance.

Members of the both groups will work with Council and the approved contractor in the coming weeks to further refine the design of the stadium to ensure the community and user group needs are met.
